

## Motivational letter IFLRY auditor Marit van der Pol

11 December 2016.

Dear liberal friends,

I would like to start by congratulating Robert Landheer for being elected as Treasurer this Saturday. Robert has been an amazing auditor for 2,5 years. Whoever is elected auditor today, will have big shoes to fill.

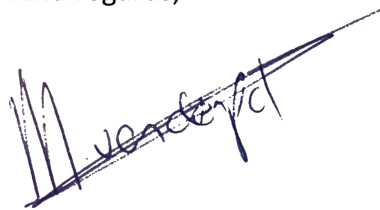

Unfortunately, I was unable to join you this weekend in Amman for the Executive Committee and Extraordinary General Assembly. Of course, I have been following everything closely through digital means. When it came to my attention that the position of auditor became vacant due to Robert's election, I was immediately interested and I decided to run for auditor soon after.

Since the General Assembly in Krakow in January 2014, I have been involved in IFLRY by participating in seminars and by being a JOVD delegate to the General Assemblies. Within JOVD, I have been one of the people who have actively supported IFLRY, because I truly believe in this organisation. Of course, there is still room for improvement and I would love to help IFLRY in any way I can to accomplish those improvements.

I believe I would be a good candidate for the position of IFLRY auditor. I can be very critical and I am not afraid to speak my mind. Those are two personality traits that are very important in an auditor. In my daily life, I am a small business owner and handle all my finances myself. Next to that, I am an (business) economics and math teacher in Dutch high schools. Therefore, I believe I have plenty of financial experience.

Dear friends, I hope I can count on your support and I would love to see all of you very soon!

Kind regards,

Marit van der Pol.
