Explanation Financial Protocol Amendments

1.2 The current reality is that besides the Executive Director, we hire at least one additional Coordinator. Therefore, it makes sense to extend the rules to the full IFLRY staff, rather than limiting ourselves to the Executive Director and Interns only.

2.9 This amendment serves to clarify the deadlines for booking flights for IFLRY representatives, so this happens on time (as per a previously decided deadline) and will not incur unnecessary costs for IFLRY in case a ticket is booked too late.

7.1 This is the current reality, as the Executive Director is in charge of the daily management of the financial administration. This is to formalise this practice, but continues to keep the main financial responsibility with the bureau.
