

Dear liberal friends,

**Liberal Youth is delighted to nominate Ab Brightman for Vice-President of IFLRY!**

Ab has been our International Officer since July 2013 and has transformed our international activities. Previously LY only had one or two members attending IFLRY events, and now under her leadership this will be the second General Assembly we have taken a full delegation to. Now LY membership's interest in being involved with our international liberal partners is so high that a trip to Strasbourg she is organising received over 80 applications in one day.

Her commitment to active international participation is clear through the high standard of work she gives every day, and the inboxes of the national Liberal Youth Executive are constantly overflowing from the number of emails Ab sends us asking us to participate in IFLRY and other international activities.

Whether it's managing a project, planning strategic international communications, or feeding back on a campaign - Ab is an incredibly competent, tough and energetic team player and will be nothing but an asset to IFLRY.

**Her practical, yet crucial, ideas for IFLRY** set out an organisational programme of diversity, fairness, and harnessing the power of digital, that is focussed on winning elections, standing up for young people, running meaningful campaigns and uniting the global liberal community to learn from each other - and we trust her to not only hit but, exceed her objectives if she is elected in Istanbul.

We will miss having Ab as our International Officer, but our loss will be your gain.

Yours sincerely,

Charlie Kingsbury & Michael Chappell  
Chairs of Liberal Youth
