

Motivational letter: Christian Holm for auditor of IFLRY

Dear liberals,

Since 2014 I have had the great privilege of working closely with IFLRY as a representative of the Swedish Centre Youth (CUF). Working within IFLRY has been a great experience and I now feel that I have more to contribute to the organisation within the field of auditing.

I am good with numbers, a skill that pushed me to read extra courses in mathematics, business economics and economics throughout high school. This interest also pushed me to study economics at university. Currently I am studying for my bachelor in economics at University of Cambridge.

Given my educational background in economics, finance and book keeping, auditing is something which would suit me very well. Moreover, within CUF I have looked at finances of boards both from the role as treasurer and president of both regional and local boards. This experience has given me good insight into NGO finances and an experience of an array of financial issues which a board may encounter. As auditor I will work to improve IFLRY's finances.

Moreover, through my over 6 years in many different boards within CUF I have gained experience of how organisations work with reaching their aims, conducting their operations and following their constitution. I believe that this experience will allow me to better audit the bureaus operations.

After having been urged by others to run for auditor, I decided to put my name forward. With my economic understanding, eye for detail, knowledge of IFLRY and experiences of working with different boards, I believe that I would be a good candidate for the post of auditor.

Thank you for considering my application,
Christian Holm
