Re: Nomination of Danylo Korbabicz for IFLRY Treasurer

Dear Liberal Friends:

On behalf of the Young Liberals of Canada it is with pleasure that we nominate Danylo Korbabicz for the position of IFLRY Treasurer. Danylo has been an active Canadian young liberal since the age of 14, and has a long history with our organization. He is an ardent supporter and promoter of internationalism within the Young Liberals of Canada, and quite obviously, around the world.

Throughout his mandates his participation in national campaigns, and other party initiatives has been invaluable. He is well liked, respected, and has an excellent reputation amongst his peers. This is the result of his many years of service and his contribution to the Liberal Party of Canada. Danylo has also served our mother party in professional capacities. He has been an assistant to a federal Member of Parliament, an advisor to both a provincial and federal Cabinet Minister, and an aide to the Premier of Ontario.

Several years ago, Danylo took over responsibility for our international program. This was no easy undertaking. The Liberal Party of Canada's electoral results during this time and subsequent legislative changes impacted the soundness of party finances and restricted international activities. In challenging times for our party-at-large he managed to participate in every IFLRY seminar, took a leading role in IFLRY's programme structure, and subsequently was elected to the IFLRY Executive Bureau.

We know Danylo has made a positive and substantive contribution to the IFLRY Executive Bureau. We're confident he can and will do more. With the Liberal Party of Canada's recent election victory and the message of progressive optimism enumerated by Prime Minister Justin Trudeau - we are convinced Canadian Liberal values are a positive force in the world and are needed more than ever.

On behalf of the Young Liberals of Canada National Executive,

Justin Kaiser  
National President
