

Free Egyptians youth

November 16, 2016

Dear Sir,

Since our inception we have been growing and utilizing our influence in fighting for a liberal and secular Egypt. Since our founding in 2011 we have opposed the Islamist government of the Muslim Brotherhood and contributed to its fall in 2013.

Since the election of Egypt's new president we have focused our work and efforts in ensuring the values and rights of the Egyptian people are attained and not neglected.

In parallel to our political efforts, one of our key strategies is to help reduce the political volatility within Egyptian society and the party eco-system. This is being accomplished by stressing cross-party communication and strengthening the grassroots movements through collaboration.

Furthermore we aim to be the platform and beacon of liberalism in Egypt, we hope to ensure that the voice of liberalism is unified, loud and most definitely young.

Given all of the above, we are honored to request to become a full member of IFLRY. Along with member parties we look forward to strengthening our international cooperation and Liberalism worldwide.

Sincerely yours,

FEP youth executive committee
