To:

International Federation of Liberal Youth

Dear Sir or Madam,

The Non-governmental organization “Liberal Democratic League of Ukraine” is a Ukrainian public non-profitable organization that was created by individuals on the basis of mutual interests of Ukrainian citizens to protect and satisfy inalienable constitutional human rights and freedoms, as well as social, economic, artistic, cultural and other interests with no regard to race, colour, religion, sexual orientation, sex, ethnic and social origin, social status, place of residence, language or other distinctions that exist on the principles of liberal democracy.

We strongly believe that human rights and freedoms constitute the main value in our contemporary world. We direct all our efforts to attainment of liberal democracy goals inside our country and abroad. We consolidate new generation of young Ukrainians who advocate implementation of liberal principals in their life and who are ready to act in order to make our future better.

The Non-governmental organization “Liberal Democratic League of Ukraine” is open for cooperation with people who share our ideas and we regard unity with like-minded organizations as a significant component on our way to liberal democracy. We position our Organization as the only independent liberal union of Ukrainian youth that is ready today to come out on the international level. And the International Federation of Liberal Youth is a global organization whose views entirely answers our purposes, whose valuable experience and work are great examples for us.

We express total and clear agreement with the principles of the current International Federation of Liberal Youth Manifesto.

We express a desire to join the International Federation of Liberal Youth as a candidate member and hope to get your approval.

Yours faithfully,

**Vice President of the Non-governmental organization
"Liberal Democratic League of Ukraine"**

Olha Tsurkan
