IFLRY - International Federation of Liberal Youth

Alianza Joven is the national youth movement of Nueva Alianza Party. We promote political and social participation of youth in Mexico. We are young liberals who have a strong commitment to the pursuit of economic, political and social freedom. We understand that we need better organized, better informed and a more participatory society. Our work and our projects are focused on improving the skills of young men and women to become better politicians and change agents.

We agree with the principles of the IFLRY manifesto because we see politics as a powerful tool to change our environment with new ideas for a better-prepared youth. This is the reason why we want to become a Candidate Member of the IFLRY. We want to get involve with your organization and other liberal organizations to collaborate and be part of the solution to the problems that young liberals face today.

Recognizing the attention given to this, I send you a warm greeting.

Sincerely,

Sandra Corona Padilla

National Coordinator of the Youth Movement Alianza Joven
