IFLRY (International Federation of Liberal Youth)

1 Whitehall Place London, UK

10th May 2017

Dear IFLRY Team,

I am writing to you as a representative of the Nowoczesna Youth, the organization which was established almost 2 years ago, as the youth part of Nowoczesna. In this letter, we would like to express our will to become a member of the IFLRY and we do believe that our membership will have a pivotal role for both organizations, since liberalism in Poland is not something that we can take for granted.

What drew our Organization to the International Federation of Liberal Youth, was the opportunity to collaborate in the remarkable, international learning environment. We expect, it will provide very useful background and contextual information for different contemporary issues. In a broader sense, such an initiative can deliver a much larger framework for understanding the limits and constraints of politics and social engagements. IFLRY's activities seem to be designed to give its members a way to better communicate with people, practice team work, creative thinking and produce new ideas and approaches to different political issues. We believe it will also give us a chance to meet with intellectual and experienced people who will enrich our practical skills.

We are interested in contributing to European liberal values in a way that goes beyond just theoretical ideas and we really hope that the IFLRY will provide us with the tools to be able to excel at doing more.

We look forward to hearing your decision. Thank you for your time and consideration.

Rafal Kuzmicki, Foreign Officer, Nowowczesna Youth
